Aims of the Federation of European Woman Pilots

- * To cultivate and retain links between women pilots.
- * To provide opportunities for women pilots to meet and fly to all European countries.
- * To develop international relationships between women pilots.
- * To promote aviation to women and support women in aviation.

What is and does the FEWP?

- * The Federation is a non-profit organisation, founded in Rome, September 23rd 1995.
- * The Federation holds an annual gathering and Fly-In, which is hosted by member countries in turn. Usually the annual summit takes place around a weekend by the end of May or beginning of June. Members fly in from all parts of Europe to meet up with old friends, make new ones and most of all, share experiences.

- * The delegates of each member country attend a board meeting before inviting all participants to the Annual General Meeting.
- * The weekend is generally organised around an aviation theme with a lot of activities around flying, sightseeing or out- or indoor activities. One of the highlights is the Saturday night galadinner for members, their families and friends.
- * Individual member organisations have their own annual event programmes and details of these activities can be found by following the links to the relevant websites.
