Belgium

No women aviation association.
 Fly In for Belgian women pilots was planned at Brasschaat airfield in 2019 but Corona outbreak stopped the attempt.
 List of women pilots who are interested is available.
 Planning: Organising a Fly In for 2025 at EBBT to meet Belgian women pilots and inquire about interest in organising a Belgian women pilots association.
 For 23/24 various articles written and several aviation meetings attended.

Alweer de zevende editie van dit evenement dat dit jaar op 23 en 24 september gezegend werd met prachtige weer! Na de viergemaakte versie van vorig jaar, die overigens toch veel publiek heeft getrokken, was het dit jaar weer heelmate GAVOK voor vliegers, medewerkers en publiek.

En kleine handvol vrijwilligers van binnen en buiten de vlieghobby zorgden ervoor dat er een deel van alle kinderen presentie streef naar de vele vliegers, zowel in de lucht als op de grond, en vooral kinderen met talloze (vrijwillige) Delfins, vliegtuigen, landings- en vertoef van vliegtuigen die lateraan betrouwbare, foudtroude (niet, lumborgers, para- (juga en walden) en antistatische diverse soorten vliegtuigen... De vliegtuigen in vliegtuigen 15.000 bezoekers en die kan zandig vliegers want zandig kan je weer over de hooftlijn lopen...

Waar het allemaal om te doen was. Vliegtuigen lijken en kenne ma kan met de (kleine) luchtvaart. Bij de vele vliegtuigen informatie van een paar over diverse activiteiten, onder langvlieger het veld op een de vele vliegers van de lucht te bekijken of een rondvlucht maken. Voor bezoekers was en parking bij het Casimir Museum voorziet.

In het nabijgelegen HLN vliegveld van er vorm een aanblijfsdag en op de site (www.MVCB) was te lezen wat er maal op het (vrijwillig) historische vliegveld van Brasschaat te beleven was. En dat was niet naar de Red Devils van de Belgische Air Force met een aantal sportvliegtuigen.
